4)News page-

create a NewsRoom component which will get the News page as parent path (news page should be authored)

and that component should fetch all the news which you have created under /contact/news folder and make sure all of the books should be placed under /content/news folder

Now create news article pages under /content/news hierarchy and author the page with title, image and text component. So that when the newsRoom component is authored it fetches these properties from each page to show on the news page as cards and each card should have Title, news Detail and image and make sure each card should have unique title, description and image.

About me page

use journalist component component to provide some information about journalist only this component should be used on this page.

5)Contact me page-

We can use text or teaser components to provide contact details to connect with the author or some social media profile links so anybody can follow him on Social Media platform.
